

Metal Product/Artist Assignment

Name: _____ Block: ____ Date: _____

Activity webpage:

<https://holbrooktech.weebly.com/03-metal-productartist-assignment.html>

This activity is meant to expose students to creative ways to make money with metal/trades by looking at the world and career options around you. Taking the skills you learn and transforming them into a way to have fun as a hobby or to make money is an option for finding your pathway in life.

Research Assignment: (to be done through the google classroom document or handwritten)

1. Research a metal artist, jewelry maker, fabricator/trades-person that makes things you like! Pick one related to your interests!.
Where are they located? What do they specialize in? Do they give tutorials or just sell their items?
2. Try and figure out the process they take for ONE (or more) of their projects and write them out in your google doc. You can also use photos/
 - o Build procedures, design work, etc, to get to their final product
 - o Do they need fancy tools or can a lot be done with basic tools or something you can get from a Dollar store!
3. You should try and go as in depth as you can and include as much information as you think is useful.
4. This is not a quick report. You may take your time to come up with something that interests you and something that you may want to take on and try to build in the shop.
5. Add photos to your document and/or put links I can follow.

Information and examples can be viewed on the web page posted above. It gives some examples of some metal artist, jewelry makers, or fabricators that you can choose from or research someone else in the world that is doing cool stuff you like. There are plenty of Youtube Channels with great people. Pick a specific person or company and try to research a little about their history and how they got to where they are now! You can also pick a family member that might run a business or work in a specific trades related field.

Use the class laptops, your own device, or Chrome-book, and use the Google Document (you can write below) to keep your information all in one place!
